1. Introduction

The Standards and Testing Agency (STA) is responsible for the development and delivery of statutory tests and assessments. STA is an executive agency of the Department for Education.

The 2016 test is the first assessment of the 2014 national curriculum. This test has been developed to meet the specification set out in the test framework for English reading at key stage 2. It assesses the aspects of comprehension that lend themselves to a paper test. The test frameworks are on the GOV.UK website at www.gov.uk/sta.

A new test and mark scheme will be developed each year.

The key stage 2 tests will be marked by external markers.

Scaled score conversion tables are not included in this document. Conversion tables will be produced as part of the standard-setting process. Scaled score conversion tables for the 2016 tests will be published at www.gov.uk/sta in July 2016. The standard setting process will take place in June 2016.

This mark scheme is provided to show markers and teachers how the tests are marked. The pupil examples are based on responses gathered from the test trialling process.

2. Structure of the key stage 2 English reading test

The key stage 2 English reading test comprises:

- a reading booklet containing three texts which increase in demand throughout the booklet
- a reading answer booklet containing questions totalling 50 marks.

3. Content domain coverage

The 2016 test meets the specification set out in the test framework. Table 1 sets out the areas of the content domain that are assessed in the test.

4. Explanation of the mark schemes

The range of marks available for each question is given at the side of the page in the reading answer booklet. Incorrect or unacceptable answers are given a mark of 0. No half marks are awarded.

The mark schemes contain acceptable points, which are indicated either by a numbered list or a square bullet point (if there is only one). These must be treated as marking principles, not the exact response a pupil needs to give. They also contain examples of some frequently occurring correct answers given by pupils in the trials (these are shown in *italics* and are introduced by round bullet points). Many pupils will, however, have different ways of wording an acceptable answer. In assessing each answer, markers must focus on the content of what has been written and not on the quality of the writing, expression or grammatical construction.

For find and copy questions, the correct answer is indicated by the word(s) outside the brackets. The word(s) inside the brackets indicate the maximum quotation allowable. Copying must be accurate.
