

History & Maths – create a timeline.

You need to create a timeline which shows some of the important events of the Anglo-Saxons and Vikings in Britain, starting from when the Romans left Britain (around 400 CE) to 1066CE (Norman conquest):

- ⌚ Put at least six events on your timeline.
- ⌚ Your timeline has to have a really, really accurate scale; for example, I made my timeline 60cm, which is 600mm, so each millimetre represents one year. But you could make it 2mm per year, or whatever you want.
- ⌚ *Top Tip:* to save on paper, measure and cut paper into equal sized strips (I got three out of a landscape sheet of A4) and tape them together on the back to make a long timeline.
- ⌚ *Challenge* (optional): how long would your timeline be in metres if each year was represented by 2cm? How far would that be in your house or garden?

English Homework – Modal Verbs

In some sentences, there are multiple modal verbs which could be used. In the right-hand column of the table below, write down all of the modal verbs which could fit each sentence. Cover the word list to provide an extra challenge!

can

might

will

should

would

can't

may

must

shouldn't

couldn't
